Dear Kim Boldig

I heard through an acquaintance that you are looking for a graphic designer. I believe that I have the right skills and would like to apply for this position.

Making a difference in my daily work is of great importance to me, and it is one of the criteria from which I chose where to work. I am a dynamic person, determined and focused on getting results.

It is important for me to get on well with my work colleagues. I am ambitious and it is of great importance to me that the company I work for offers opportunities for my development.

Working hard to achieve my goals I never compromise with the quality of my work. Working with Microsoft has been an exciting journey and I am now ready to explore new avenues and challenges.

The most important thing for a graphic designer is to be focused and targeted and I have these qualities. My work and leisure time are both important to me so I prefer a regular work schedule.

I hope that my application has attracted your attention.

Sincerely,

Mark Sander
